Beste Bert

Op 30 april 2024 heeft ERM het gefaseerde bodemsaneringsproject (BSP) ingediend met als titel "Gewijzigd eerste gefaseerd bodemsaneringsproject - Percelen met woonfunctie en recreatieve gebieden ten zuiden van de E34 - deel aanpak humaan-toxicologisch risico voor PFAS in het vaste deel van de aarde".

Tijdens de evaluatie van dit gefaseerd bodemonderzoek is vastgesteld dat in Bijlage 1 een deel van de percelen niet correct is weergegeven. Bijlage 1 omvat de lijst van de te saneren percelen, samengevat per groep waarbij per groep een referentieperceel is opgenomen in Mistral. Bij de oplijsting van de percelen in groep 4 zijn er enkele percelen niet opgenomen. Een correcte versie van Bijlage 1, waarbij de juiste percelen van groep 4 zijn opgelijst, is in bijlage van deze brief opgenomen.

Tot slot dient wel vermeld dat de gegevens in de administratieve tabellen wel correct zijn, enkel in groep 4 van bijlage 1 waren enkele percelen niet correct weergegeven.

Wij gaan ervan uit dat met voorliggende erratum deze foutieve weergave gecorrigeerd is.

Met vriendelijke groeten,

Voor ERM nv
