

Authorisation for digital declaration of transboundary waste shipments in the WSR-webportal of the OVAM

Principal [Name entity] [VAT number] [Name contact person] [Street + house number] [Postal code + city] [Country] [Phone number] [E-mail]
Authorised representative [Name entity] [VAT number] [Name contact person] [Street + house number] [Postal code + city] [Country] [Phone number] [E-mail]

With this document, [authorised representative] is entitled to submit the following movement documents digitally in the WSR-webportal on behalf of the principal:

(indicate as applicable)

- Declaration of departure
- Cancellation of shipment
- Declaration of receipt
- Declaration of treatment

The authorisation is valid for all transport declarations for notification [notification number] and for the period from the declaration of departure of the first shipment until the last declaration of treatment and only applies for declaring the shipments in the WSR-webportal of the OVAM. The notifier remains ultimately responsible for the declaration of departure and cancellation, the content of these declarations and keeping the declarations for at least 5 years. The treatment facility remains the ultimately responsible party for the declaration of receipt and declaration of treatment, the content of these declarations and keeping them for at least 5 years. It is important that the principal sends the declarations to the authorised representative and that the authorised representative effectively enters them into the WSR-webportal of the OVAM.

This authorisation also does not relieve these parties of the obligation to submit the declarations for which they are responsible to the other competent authorities.

The authorised representative archives the declarations sent by the principal to the authorised representative. The OVAM agrees that the declarations are done on behalf of the principal by the authorized representative for notification [notification number] in the WSR-webportal of the OVAM and confirms that by doing so comply with Article 16 of Regulation 1013/2006 in this way.
